

PAT 250 series

Handheld portable appliance testers with Bluetooth®

- CertSuite PAT software included (1 year licence*)
- Control of testing from CertSuite PAT
- Save results to the cloud and produce reports quickly
- Simple tick or cross for pass or fail indication
- Battery powered with rechargeable options
- Safe 250 V insulation and leakage test for surge-protected and IT equipment
- Continuity test 200 mA
- Substitute leakage testing
- Mains powered and 10 mA and 30 mA portable RCD lead testing
- Fast testing and report generation
- Tough, rubber armour with built-in front cover and lightweight for portability

DESCRIPTION

The PAT250 series of hand-held portable appliance testers enables simple, fast safety testing in all environments including offices, shops and business units. Its tough, reliable functionality is ideally suited for training organisations with high turnover, intensive courses.

With rubber armoured cases and hardened, scratch-proof glass, the PAT250s are exceptionally tough instruments.

Battery powered operation makes the PAT250s perfect for those locations where an electrical supply is not available, inconvenient or unsafe, especially building sites and warehouses. The PAT250 series conforms to all UK and European requirements for electrical safety testing.

CERTSUITE PAT SOFTWARE

The PAT250 series is supplied with CertSuite PAT as standard (1 year licence, subscription applies after 1 year). With CertSuite PAT, recording PAT test results and producing professional quality test reports is quick and easy. Unlimited reports and jobs are supported.

For more information on CertSuite PAT
please visit megger.com
or scan the QR code ➔

*After 1 year a subscription charge applies please see
megger.com for further information.

Test groups

Test groups enable the correct sequence of tests to be performed automatically with minimum intervention by the user. This keeps testing simple, reduces test times to a minimum and helps to prevent testing errors.

THE PAT250:

- The PAT250 has additional tests available for testing portable RCDs (PRCDs) of 10 mA and 30 mA.
- Separate tests for continuity, insulation, mains powered leakage testing and SELV measurements can be made using the Quick Test (QT) button.
- Test group pass limits and test duration can be configured by the user.
- Bond lead resistance can be nulled to reduce measurement errors.
- Live circuit measurement is available for testing the mains supply and socket polarity or electrical circuit voltage to 300 V ac.
- Can be used for testing fixed appliances.

Continuity test

Used for measuring the proper bonding of all metal parts of a class I device to the protective conductor.

Tests are performed at 200 mA DC in both polarities to be compliant with international and UK regulation or recommendations. This test is safe to perform on equipment where higher test currents could cause damage.

PAT 250 series**Handheld portable appliance testers with Bluetooth®****Insulation testing**

Used for measuring the separation of conductive parts or conductors from earth. This test is usually performed at 500 V dc. The PAT250 series maintains the necessary test voltage down to 0.5 MΩ.

Substitute leakage testing

Substitute leakage testing enables the measurements of AC leakage currents, which could differ significantly from the DC Insulation test results.

Substitute leakage testing is performed at less than 40 V ac. and does not require a mains supply.

Substitute leakage testing is used for measuring protective conductor current and touch current, in addition to an insulation test, or where it is considered an insulation test may damage equipment.

The Substitute leakage test will not operate equipment and so can be used where the operation of the equipment under test is undesirable.

Portable RCD testing (PRCD)

Portable RCDs can be tested using the PAT250SX.

There is no need to find a non-RCD protected supply as the PAT150 will not trip external RCDs.

Both 10 mA and 30 mA RCDs can be tested both for disconnection times and the manual test button function.

Separated Extra Low Voltage (SELV) supplies

SELV supplies should be tested to ensure the output voltage does not exceed maximum limits as defined in the international regulations for Extra Low voltage systems. The PAT250SX permits up to 50 V AC measurement, with a PASS or fail indication for SELV.

Differential Leakage (Protective Conductor Current), Touch Current and operational test

The PAT150 includes the facility for mains powered leakage test. This test has the benefit that equipment under test will function during the test sequence.

Battery life

The PAT250SX operates from AA Alkaline or NiMH cells. Battery life is typically four days, based on one hundred and twenty assets per day.

The PAT250SX can be re-charged with NiMH batteries fitted.

SPECIFICATIONS**Environmental Condition**

Operating ambient	20 °C
Humidity	45% rh ± 20 points

Continuity Test

Test voltage	Compliance voltage: +4 V DC -0% / +30% (open circuit)
Test current	Bi-directional +200 mA -0 % + 50 mA (into 2 Ω load)
Continuity accuracy	Resistance: ± 5% ± 3 digits (0 to 19.99 Ω)
Resolution	Resistance 10 mΩ
Display range	0.01 to 19.99 Ω
Continuity	test nulling up to 9.99 Ω
Test time	User selectable from 2 s to 20 s or selected during test to 180 s

Insulation Test

Insulation test	250 V DC -0% +25% open circuit 500 V DC -0% +25% open circuit ≥ 500 V 0% DC across 0.5 MΩ load
-----------------	--

Short circuit/charge current	< 2mA DC
Insulation accuracy	± 3% ± 10 digits (0 to 19.99 MΩ)
Resolution	0.01 mA
Display range	0.10 MΩ to 99.99 MΩ
Test duration	User selectable from 2 s to 20 s or selected during test to 180 s

Substitute Leakage Test

Leakage current	Accuracy ± 5% ± 3 digits
Test frequency	Nominal mains frequency 50 Hz
Test voltage	< 50V ac
Resolution	0.01 mA
Display range	0.10 to 19.99 mA
Test duration	0.01 mA
Display range	User selectable from 2 s to 5 s Reading corrected to 230 V AC

Differential Leakage Current

Test voltage	Nominal supply voltage 230 V AC
Test frequency	Nominal mains frequency 50 Hz
Test accuracy	± 5% ± 3 digits ± 3 uA/A
Resolution	0.01 mA
Display range	0.10 to 19.99 mA
Test duration	User selectable from 2 s to 5 s

Touch Current Test

Test voltage	Nominal mains 230 V AC
Test frequency	Nominal mains 50 Hz
Test accuracy	± 5% ± 3 digits
Resolution	0.01 mA
Display range	0.10 to 3.99 mA
Test duration	User selectable from 2 s to 5 s

SELV Device Test

Test voltage	0 to 300 V AC
Test accuracy	± 3% ± 3 digits
Resolution	0.1 V AC
Display range	0.1 to 300 V AC

PAT 250 series

Handheld portable appliance testers with Bluetooth®

Extension Lead Test

Test voltage	5 V
Polarity	Lead OK Live/neutral shorted Live/neutral reversed Live/neutral open circuit

Extension Portable RCD Test

Test voltage	Nominal mains 230 V
Test frequency	50 Hz
Test current accuracy	+2 % to +9 % (1 x I, 5 x I)
Test accuracy	Trip time $\pm 1\% \pm 1\text{ ms}$
Resolution	Trip time 0.01 ms
Display range	0 to 200 ms (1 x I) 0 to 40 ms (5 x I)

Main Supply Test

Frequency measurement range	50 Hz
Test voltage	40 to 300 V AC
Test accuracy	$\pm 3\% \pm 3\text{ digits}$
Resolution	0.1 V AC

Circuit Test

(Carried out automatically, not available to user)

Test voltage	5 V
Test frequency	Nominal mains 50 Hz
Test current	<100mA short-circuit

Safety

Instrument designed to IEC 61010-1: 2010

Test leads designed to IEC 61010-031: 2008

PAT250

300 V to Earth Category II
Mains fuse protection to 250 V rms AC

EMC

Design to meet IEC 61326-1: 2012 and IEC 61326-2-2: 2005.

Performance standard

BS EN 50678:2020

BS EN 50699:2020

User replaceable fuse

13 A fused mains plug
(PAT250-UK only)
One F 100 mA 250 V 5x20 mm HBC

Operating temperature

0 °C to +40 °C

Storage temperature

-20 °C to +60 °C

Humidity

90 % rh @ +10 °C to +30 °C

75 % rh @ +10 °C to +60 °C

Operating altitude

up to 2,000 m

IP rating

IP40 (with front cover closed)

Megger®

Services d'EURO-INDEX

EURO-INDEX est un fabricant, importateur et distributeur de diverses marques A dans le domaine des instruments de test et de mesure. Nous fournissons également une large gamme de services pour optimiser l'utilisation de ces instruments dans vos activités. Ces services comprennent naturellement l'entretien, la réparation et l'étalonnage des instruments, mais nous proposons aussi une assistance sous forme de formation via notre EURO-INDEX Academy et la location d'instruments.

Centre de Service Agréé

EURO-INDEX est un Centre de Service Agréé pour toutes les marques représentées. Cela signifie que vos instruments sont pris en charge par des techniciens formés par le fabricant et disposant des outils et logiciels adéquats. Seules des pièces d'origine sont utilisées et la garantie de votre instrument, ainsi que les certifications (ATEX, EN50379, etc.) restent intactes.

Laboratoire de maintenance et de calibrage

Le laboratoire des Pays-Bas est accrédité RvA selon la norme EN-ISO/IEC 17025. Cette accréditation est valable pour différentes grandeurs, telles que spécifiées dans le champ d'application associé au numéro d'accréditation K105. Les certificats de calibrage RvA sont acceptés à l'international et équivalents à ceux de BELAC.

Service Mobile

Outre les laboratoires d'étalonnage fixes de Zaventem et de Capelle aan den IJssel, nous disposons également d'un laboratoire itinérant appelé "Service mobile". Nos services puissent venir vers vous, en offrant une qualité équivalente.

MQS®

MQS® est une formule d'entretien exclusive comportant un entretien et un calibrage périodiques de vos instruments de mesure à un coût fixe et faible. Via un portail Web gratuit (monmqs.be), vous avez toujours accès à vos certificats de calibrage.

Location d'instruments de mesure

- Vaste assortiment
- Précision démontrable par le certificat d'étalonnage actuel
- Conseils avisés
- Les instruments sont livrés avec leurs accessoires

EURO-INDEX Academy

- Formations et séminars
- Vidéos de démonstration et d'instruction
- Notes d'application
