

AQUAPHON® A 200

AQUAPHON® A 150

Locate leaks in the water pipe network – systematically and precisely

***From pre-location to
precise pinpointing***

Leak? The AQUAPHON® A 200/A 150 supports your decision perfectly.

Take clear decisions

Both devices analyse noises automatically and suggest appropriate filters. You can also set the filter manually.

Maximum freedom of movement

All of the A 200 components run via radio – with no annoying cables. In the case of the compact A 150 only the headphones are wireless while the carrying rod remains wired.

Keep track of everything

The large colour display on the AQUAPHON® A 200 clearly shows frequencies and sound intensity. The AQUAPHON® A 150 display automatically rotates by 180 degrees depending on the orientation.

Even more benefits for you:

Pre-locating and
pinpointing with
the A 200:

Acoustic water
leak detection
with the A 150:

- + Reliably locate noises using high-quality piezo microphones with specially optimised frequency responses
- + GNSS module (Global Navigation Satellite System) for accurate documentation of location (AQUAPHON® A 200 GNSS)
- + Compare leak noises directly on site using the integrated audio player (AQUAPHON® A 200/AQUAPHON® A 200 GNSS)
- + Hearing protection function
- + Work safely, even without previous experience: The device gives instructions to guide you through the different applications (AQUAPHON® A 200/AQUAPHON® A 200 GNSS)
- + Always be ready – powerful rechargeable batteries last up to 50 hours Operating time (AQUAPHON® A 150)
- + The device's low weight makes it easy to carry (AQUAPHON® A 150)
- + Documentation with WaterCom software (AQUAPHON® A 200/AQUAPHON® A 200 GNSS)

The AQUAPHON® A 150 is easy to carry
on a belt

Pre-locating leaks

Pinpointing for confident excavation

Choose your device

AQUAPHON® A 200

Your professional solution for acoustic water leak detection

- + Clear 5.7" VGA colour display
- + Integrated audio player

AQUAPHON® A 200 GNSS

Your professional solution for acoustic water leak detection

- + Clear 5.7" VGA colour display
- + Integrated audio player
- + GNSS positioning

AQUAPHON® A 150

Locate leaks accurately with this compact solution

- + Display can rotate by 180 degrees
- + Low weight
- + Long operating time

System components/accessories for your everyday work

Whether it's pre-locating or pinpointing – the right accessories make your work easier and ensure smooth processes.

Wireless headphones F8, noise protection

- + Wireless, lightweight, featuring integrated hearing protection, splash-proof, also available in model to attach to helmet

Carrying rod TS 200

- + Ergonomic, wireless carrying rod to connect to the TM 200 and BM 200/BM 230 microphones – for pre-locating and pinpointing

Carrying rod TS 150

- + Carrying rod to connect to the TM 200 touch microphone and the BM 200/BM 230 ground microphones – for pre-locating and pinpointing (AQUAPHON® A 150)

Touch microphone TM 200 and probe tip (350 mm)

- + Special microphone for pre-locating leaks on fittings

Ground microphone BM 200

- + Ground microphone for optimal noise transmission – particularly suitable for paved surfaces

Ground microphone BM 230

- + Ground microphone for optimal noise transmission – particularly suitable for unpaved surfaces

Universal microphone UM 200

- + For accurate signal measuring in standard locating situations (130 to 600 mm)

Probe tip extensions (300 and 600 mm)

- + Connects to the TM 200 touch microphone – for pre-locating leaks on fittings

Chargers

- + Different models (mobile/stationary) – for workshop, office or vehicle

Reliable technology. Competent support.

Water pipe network inspection with Sewerin

Would you like to have the leak tightness of your water supply network reliably tested? Whether you are looking to avoid water loss, protect against damage or fulfill legal requirements – our experienced specialists and state-of-the-art technology are here for you. Whether you want to detect leaks acoustically during operation, use the highly sensitive tracer gas method or determine exact pipeline location, even for plastic pipes – Sewerin has the right service package for you to safely and responsibly manage your network.

Do you have questions? Call us.

Which locating system is right for your everyday work – the fully equipped AQUAPHON® A 200 or the remarkably compact AQUAPHON® A 150? Let's talk. Our service and sales team will gladly support you when choosing the right device. We are there for you when you commission the device as well as afterwards.

Services d'EURO-INDEX

EURO-INDEX est le fabricant de la gamme LIGNE BLEUE et l'importateur/distributeur de diverses marques A d'instruments de test et de mesure. Nous proposons également un large éventail de services visant à optimiser l'utilisation de ces instruments dans le cadre de vos activités. Cela comprend la maintenance, la réparation et l'étalonnage des instruments, mais aussi le partage de connaissances via l'EURO-INDEX Academy et la location d'instruments.

Centre de Service Agréé

EURO-INDEX est un Centre de Service Agréé pour la plupart des marques de sa gamme. Cela signifie que vos instruments sont pris en charge par des techniciens formés par le fabricant et disposant des outils et logiciels adéquats. Seules des pièces d'origine sont utilisées et la garantie de votre instrument, ainsi que les certifications (ATEX, EN50379, etc.) restent intactes.

Laboratoire d'étalonnage

Notre laboratoire de service et d'étalonnage est accrédité BELAC conformément à la norme EN-ISO/IEC 17025. L'accréditation s'applique aux grandeurs et aux plages de mesure mentionnées dans l'annexe certifiée portant le numéro de certificat [760-CAL](#).

MQS®

MQS® est une formule d'étalonnage pour vos instruments de test et de mesure, comprenant un entretien et un étalonnage périodiques à un coût fixe et avantageux. Vos certificats d'étalonnage sont disponibles au format numérique via Mon MQS (portail web et application gratuits) et en scannant le code QR sur l'autocollant d'étalonnage de l'instrument.

Location d'instruments de mesure

Il existe plusieurs situations dans lesquelles la location est pratique :

- Vous avez temporairement besoin d'appareils supplémentaires.
- Votre propre instrument de mesure est en cours d'entretien et/ou d'étalonnage.
- Vous devez effectuer une mesure occasionnelle.

EURO-INDEX Academy

- Formations, sessions d'informations et workshops
- Vidéos de démonstration et d'instruction
- Notes d'application
