

EX-TEC[®]

HS 680 | 660 | 650 | 610

Precise leak detection. Clear results.
Combination measuring devices for all applications.

*Including
methane analysis*

Your gas measuring device for every application.

One device for all applications

From above ground inspection to the measurement of gas purity – the EX-TEC® HS devices equip you perfectly in any situation.

Confidently distinguish: Natural gas or swamp gas?

Thanks to integrated ethane analysis (EX-TEC® HS 680/660) you can clearly identify whether you are dealing with natural gas or non grid-bound gas.

Stay relaxed while you work

Thanks to the intuitive operation on a large backlit display and the sturdy design, you can stay relaxed even in the harshest conditions.

Even more benefits for you

detailed product
information:

- + **Document quickly and easily**

Use the powerful GasCom software to quickly read measurement values and configure the device.

- + **Provide safety**

Explosion protection for all models:
TÜV 07 ATEX 553353 X II 2G Ex db eb ib IIB T4 Gb,
IIC when using the TG8 carrying bag

- + **Work flexibly**

Replaceable batteries, charge at the charging station or directly on the device, quick charge in 4 hours

- + **Document your gas pipeline inspection using SeCuRi® SAT**

- + **Minimise cases of accidental excavations**

Thanks to the combination of different sensors

- + **Stay mobile**

Compact device design, low energy consumption

- + **Save time**

Quickly pinpoint gas leaks thanks to extremely sensitive sensors

Measuring shafts

Measuring in bar holes application

Inspecting for gas indications

Choose your device

EX-TEC HS® 680

Gas detecting, gas warning and gas measuring

The ethane analysis supports the user with automatic messages in the device and provides a clear result to differentiate between natural gas and swamp gas (CH₄, C₂H₆, C₃H₈*).

EX-TEC® HS 660

Gas detecting and gas measuring

The ethane analysis supports the user with automatic messages in the device and provides a clear result to differentiate between natural gas and swamp gas (CH₄, C₂H₆, C₃H₈*).

EX-TEC® HS 650

Gas warning and
gas measuring

EX-TEC® HS 610

Basic gas
measuring device

Accessories for your everyday work

Whether it's leak detection, maintenance or calibration – the right original accessories make your work easier and ensure smooth processes.

System case

- + Everything you need to inspect the pipe network

Carpet probe PRO

- + For pipe network inspection on paved surfaces

Bell probe / telescopic bell probe

- + For pipe network inspection on unpaved surfaces

Telescopic probe SeGAS GRP

- + For inspecting difficult to access exposed pipelines

Localisation probe PRO

- + For pinpointing leaks in the inspecting bar holes application

Floating probe

- + For monitoring shafts or enclosed spaces

Flex hand probe / telescopic hand probe

- + Flexible leak detection for two-hand operation (length 360 mm or 450 to 930 mm)

Test sets & gases

- + For standard calibration

Powerful GasCom software

- + Conveniently display the recorded measurement values and extensive device configuration

Do you have questions? Call us.

Which model of the EX-TEC® HS 6x0 series is the right solution for your challenge? Let's talk. Our service and sales team will gladly support you when choosing the right device. We are there for you when you commission the device as well as afterwards.

Services d'EURO-INDEX

EURO-INDEX est le fabricant de la gamme LIGNE BLEUE et l'importateur/distributeur de diverses marques A d'instruments de test et de mesure. Nous proposons également un large éventail de services visant à optimiser l'utilisation de ces instruments dans le cadre de vos activités. Cela comprend la maintenance, la réparation et l'étalonnage des instruments, mais aussi le partage de connaissances via l'EURO-INDEX Academy et la location d'instruments.

Centre de Service Agréé

EURO-INDEX est un Centre de Service Agréé pour la plupart des marques de sa gamme. Cela signifie que vos instruments sont pris en charge par des techniciens formés par le fabricant et disposant des outils et logiciels adéquats. Seules des pièces d'origine sont utilisées et la garantie de votre instrument, ainsi que les certifications (ATEX, EN50379, etc.) restent intactes.

Laboratoire d'étalonnage

Notre laboratoire de service et d'étalonnage est accrédité BELAC conformément à la norme EN-ISO/IEC 17025. L'accréditation s'applique aux grandeurs et aux plages de mesure mentionnées dans l'annexe certifiée portant le numéro de certificat [760-CAL](#).

MQS®

MQS® est une formule d'étalonnage pour vos instruments de test et de mesure, comprenant un entretien et un étalonnage périodiques à un coût fixe et avantageux. Vos certificats d'étalonnage sont disponibles au format numérique via Mon MQS (portail web et application gratuits) et en scannant le code QR sur l'autocollant d'étalonnage de l'instrument.

Location d'instruments de mesure

Il existe plusieurs situations dans lesquelles la location est pratique :

- Vous avez temporairement besoin d'appareils supplémentaires.
- Votre propre instrument de mesure est en cours d'entretien et/ou d'étalonnage.
- Vous devez effectuer une mesure occasionnelle.

EURO-INDEX Academy

- Formations, sessions d'informations et workshops
- Vidéos de démonstration et d'instruction
- Notes d'application
